AI-Powered Language Translation Web Application

November 2025

- Engineered a real-time AI-powered web application for language detection and multilingual communication using API integration.
- HTML5, CSS3, JavaScript (ES6+), Google Cloud Translation API, Web Speech API (Text-to-Speech), Fetch API, Async/Await.
- Delivered a high-performance system with real-time processing, performance optimization and debounce techniques, multilingual support, and integrated text-to-speech functionality.

Certification

Intro to Programming - (Kaggle)

November 2025

Intro to Generative AI - (Simplilearn)

November 2025

Low-Level Design of Payment Application- (Scaler)

October 2025

AI/ML Bootcamp – ALPHA INTERN Pvt. Ltd

October 2025

TCS ION Career Edge – Young Professional

October 2025

Skills

Languages: C, Python, HTML, JavaScript, CSS

Technologies/Frameworks: Git, GitHub, VS Code, Jupyter Notebook

Domain: Machine Learning (Supervised Learning, Model Evaluation, Feature Engineering), Data Analysis (Pandas, NumPy), Scikit-learn, Data Visualization (Matplotlib, Seaborn), MySQL, IBM Cognos Analytics

Soft Skills: Problem Solving, Leadership, Teamwork, Adaptability, Time Management

Education

Lovely Professional University

2025 – Present

Master of Computer Applications (AI/ML)

Jalandhar, Punjab

Aisect University Hazaribag

2022 – 2025

Bachelor of Science (Information Technology) — CGPA: 8.37

Hazaribag, Jharkhand

Markham College of Commerce

2022

12th — Percentage: 68.80%

Hazaribag, Jharkhand

High School Chumba Ramgarh

2020

10th — Percentage: 69.40%

Ramgarh, Jharkhand
